Friday June 1, 2012 7:00PM "Max the Crystal Skull". Believed to be thousands of years old, Max is known to be a wisdom carrier of ancient knowledge. Much research has been done on Max, however his true origin still remains a baffling mystery. He seems to defy logic. Everything that is known about lapidary work indicates that Max should have been shattered fractured or fallen apart when he was carved. Many people have had profound visions and psychic experiences when viewing Max. Some people believe that Max is an intricate computer, possibly brought here from other planets, and that he holds knowledge about the origin of our race and our planet Earth.**

Max was given to Jo-Ann and Carl Parks by a Tibetan trained Red Hat Lama, a healer of the highest order. They are now the owners and caretakers of the world famous quartz crystal skull, known as MAX. The Parks live an average life in Texas , USA . To this day Max the crystal skull serves as a healing spiritual tool, and is used as a tool of focus and service; to interact with and through. Max was researched by the British Museum in 1996 and they could not account for his creation. Max has been in many documentaries; A&E, the BBC Channel, Discovery Channel, History Channel, Si-Fi Channel and has done documentaries in France , Japan , and the Spanish Channel. He has been featured in many newspaper articles, books, and TV shows all over the world.

Come see Max and hear the amazing story of how Max came into Jo-Ann Parks' life and has had her on a 27 year spiritual path all over the US and Europe, reminding people of the truly important things in life. This is a once in a lifetime event you can't afford to miss! For more information visit. Members: \$20, Non-Members: \$25
