

**Program of Events May 2015 through June 2015**

**Friday, May 15, 2015 8:00PM** Event: **"Out of the Mouths of Babes – Unadulterated Accounts of Children’s Memories of Past Lives"** , an evening with Joseph Gargano. Joseph is a Metaphysician - lecturer, writer, reiki master, channel and medium with a concentration in the AfterLife, transition awareness and healing, and the study of the evolution of consciousness. Complimenting this metaphysical work, Joseph, who is a former practitioner in the law, also counsels and guides creative artists in the field of music, film and related media – instilling and awakening a spiritual awareness of creative intelligence and higher consciousness in the arts.

This presentation will offer case studies of numerous worldwide reports over the last half century of young children who have made astonishing claims of detailed and evocative past life memories. The discussion will also examine the intersection of Reincarnation and Biology, where birthmarks and birth defects of the child correlate to the previous personality they claim to have once been. The patterns and the connections are surprising, fascinating and persuasive and present a convincing case for the Reincarnation of the deceased personality.

A discussion of the general precepts of Reincarnation and Life on The Other Side will set the stage for the evidence presented here in making a compelling argument that supports both this theory, and the in-between-life implications of these claims. It is our collective past behaviors that is making the world hostile to our survival.

The earth does not need saving it is humanity that needs to be saved. Our technology is leaping forward, but the wisdom, morality, and ethic to manage these advancements are lacking. If we are to survive as a species we have to evolve in consciousness. That evolution is ascension.

What is ascension and how does that personal experience connects to planetary leadership? Join us an evening of exploration, ideas, and answers. Pierre is a knowledgeable and eloquent speaker who holds much wisdom and insight into the very nature of consciousness and the direction and evolutionary changes upon GAIA presently experienced by us all at this present time.
