Lecture/Workshop: **An evening with Gina Simone**, gifted psychic, medium, medical intuitive and Reiki Master Teacher. In the first part of this workshop, Gina Simone will share her personal experiences and her personal path to medium-ship to reveal how she connects with Spirit to translate messages to clients.

She will teach us how we all have the ability to tap into our own natural intuition to communicate with Spirit to receive messages and signs from our deceased loved ones, as well as our own Spirit Guides. At the conclusion of this workshop, each person will have a better understanding of how they can connect with their loved ones, who are always with them.

The second portion of the workshop will be a Gallery style open reading with messages for the audience from their loved ones, who have crossed over into Spirit. In her readings, Gina delivers detailed messages from loved ones that have passed, as well as discussing your soul's purpose from your Angels and Spirit Guides. She

has even channeled messages from pets that have crossed over. It is her life's purpose to help teach and bring evidential proof that the soul continues after our bodies pass. As a psychic, Gina provides clear direction on various topics including relationship & love issues, family, business decisions, and guidance pertaining to your soul's purpose. Please come one come all to this one time opportunity to understand your souls purpose and receive guidance from your guides!

Lecture: **An Evening of Shamanic/Empathic Healing and what's Really Going On in 2015** with, Gary Spolansky, Shamanic/Empathic Healer/Reiki Master, MBA/RMT and author of *Surgeons of the Soul* and *Stories of Hope and Healing*"

2015 is the year of the great shift which will help each of us to move into a grander awareness and acceptance of our true selves. But it's not the energies of the times alone that will push us forward, we also have to help ourselves by clearing/releasing the energies and experiences of our past that keep us from moving ahead.

Shamanic/Empathic Healing is a "body centered therapy" that allows us to clear negative energies and traumatic experiences at their source in a highly effective manner. This process has sometimes been described as "therapy on speed".

In this presentation Gary Spolansky will explain what Shamanic/Empathic Healing is, how it works and how it can benefit you. He will also be giving mini-healings on all members of the audience who wish to experience this modality for themselves. Gary has been utilizing this approach with his clients for the past 20 years with great success. This will be a great way to start off "The New Year 2015!"
