

Program of Events January – February 2016

Friday, January 22, 2016 8:00 PM Lecture: **Demonstrating Spirit Communications Using EVPs**, with Joe Giaquinto a medium and ghost investigator, as he explores how spirits communicate with the living. Whether it's through a psychic reading or your car radio, spirits are ready to talk to those willing to tune in! Joe will discuss the various types of mediumship methods and high-tech devices available for communicating with the other side and how he uses them to validate evidence. He will play several examples of Electronic Voice Phenomena (EVPs)—the actual recordings of spirit voices—and conduct a live EVP recording session with the audience! At the conclusion of this event, Joe will be available to answer your questions about the supernatural. Be sure to join us for this exciting event.
