

Program of Events March – May 2016

Friday, March 25, 2016 8:00 PM

Lecture: Numerology, by Carol Durand, Master Numerologist. Numerology is an ancient mystical system of divination. It is a count or measurement of life. This was the meaning for Mesopotamian Scribes. The Ancient religions of Assyro-Babylonians assumed that the celestial world was “numerologically harmonious” one in which the numerical value of a name was essential attribute of the individual to which it belonged. The phrase “what’s in a name “can explain this phrase.

Come down and see Carol and learn everything you ever wanted to know about Numerology and then some! Carol will teach you how numerology really works and also give spot readings. Carol will also share her insights into Western Numerology and how it relates to Divine Providence, Holograms, Our Personal Energy, Speech, The Life of Nicola Tesla, Time and The Universe. Whew, all this for the price of admission such a deal!!!!

Event: Meet the Psychics This evening’s program is designed to bring you the opportunity to get up close and personal with our gifted readers, mediums and psychics. The audience is scheduled to be seated in one of five semi-circles and five psychics will each spend 25 to 30 minutes in each circle before rotating to the next circle.

By the end of the evening, all attendees will have had the opportunity to interact with all of the psychics.

So please mark this date on your calendar and be there at “Meet The Psychics” to experience first hand, in a very intimate environment, Most of these gifted metaphysicians will be doing readings at our Spring Festival on Sunday April 10, 2016

Sunday, April 10, 2016 11:00 AM to 5:00 PM

Special Event: The Annual Eyes of Learning Spring Festival

Please join us for the Eyes of Learning's most popular event. It's our Spring Festival!!!

With wonderful raffles, vendors, free lectures, food, camaraderie and the option to purchase your own psychic reading, who would want to miss this important, uplifting and fun event? Spend a day with "like minded individuals" and make some new friends! A day not to be missed.

The festival is a major source of our operating revenue thanks to the many volunteers and psychics who generously give of their time and talents to keep our regularly scheduled lectures and workshops available to all. You can "give back" to the Eyes of Learning through your annual membership dollars and by generously supporting our festival vendors.

A token admission fee of \$5.00 will gain access to lectures, vendors and food provider while helping to fund our operations.

Lecture: "Mediumship": The Art of Spirit Communication"

Winter Brook is a psychic medium & Reiki Master/Teacher, who holds a Juris Doctorate from St. John's University School of Law School and a B.A. from Boston College. After studying with some of the leading mediums in the world today as well as local teachers, she opened her office where she currently maintains an active private practice in Northport, New York. She frequently gives public demonstrations of mediumship at libraries through Long Island, Spiritualist churches throughout the US, colleges, community organizations, Eyes of Learning and other metaphysical organizations as well as interviews with radio and television programs. She shares her knowledge of mediumship with her students in the development classes she regularly holds.

This program has three parts. Winter will touch upon the different types of mediumship which mediums use when connecting with deceased loved ones (the "clairs" and give examples of each). She will also provide tips and techniques to our members to use if they wish to try to enhance their own psychic / mediumistic connections. Sometimes it is just a matter of recognizing the communication which our loved ones are using as they try to actively communicate with us. Part two of the program occurring before the break, Winter will lead the group in a meditation designed to align our chakras and raise our vibration. After the break, she will give a demonstration of mediumship using the various methods discussed. This is one not to be missed!
